### **NEW LICENSEE FOR MISTRAL WINDSURF**

As informed last year, the Boards & More Group, completely owned by Airesis SA Switzerland, sold the trademark "Mistral" to Mistral International, based in Holland. Mistral International was and is lead by Mr. Ado Huisman a former key-licensee of Mistral-Textile in Europe. Since then Boards & More continued Windsurfing business under the brand Mistral as a licensee of Mistral International.

After negotiations during the last months, it was decided by Mistral International to work with a new licensee for Mistral Windsurfing, starting with the 2010-collection. This new licensee is Bringdal International, owned and run by Anders Bringdal, a well known windsurfer.

Boards & More will continue the Mistral windsurf business for 2009 products unchanged led by Thomas Latein (Sales) and Alex Hasch (Marketing). All issues regarding these products (orders, shipments, warranties) will be handled as in the past by Boards & More.

Boards & More would like to thank its' Mistral-business partners for the cooperation during the last decades and wishes the brand Mistral and Anders all the best for the future.
